

THE NORTH AMERICAN LEADER IN CORPORATE APPAREL & PROMOTIONAL PRODUCTS

We Are Looking!

Picture yourself working for an innovative, customer focused, Canadian Company with solid roots in the industry and a bright future ahead. This Company has an aggressive growth strategy with the infrastructure and people to become a dominant force in their business.

This Company is looking for you!

Unisync Group is a full service, business to business, vertically integrated provider of apparel and related solutions offered through our three distinct brands: **York, Hammill and ShowroomOne**. We provide more than 10,000 customers with uniforms and branding products that enhance their business. The greatest strength Unisync has is in its people and we are looking to build the team.

RAW MATERIAL SOURCING

We are looking to fill a position in Raw Materials Sourcing based out of our Mississauga office.

The position is responsible for sourcing resources to keep the manufacturing process on schedule. They are expected to develop and monitor our raw material purchase process from inception through completion, interacting with key players internally and externally. In addition they look at product quality, costing, terms of all contracts, licenses, insurance and liability agreements for each source

The successful candidate will have the following attributes:

- Superior proficiency and knowledge in Excel
- Strong garment knit and woven industry network
- Strong technical knowledge of specialty fabrics, specifically fire resistant and waterproof
- University degree in Applied Textile Science, preferred
- More than 5 years experience in field, preferred
- Strong presentation skills
- Strong communication skills
- Attention to detail
